About the JET Programme

The Japan Exchange and Teaching (JET) Programme is administered through the collaboration of Japan's local government authorities, the Ministry of Internal Affairs and Communications (MIC), the Ministry of Foreign Affairs (MOFA), the Ministry of Education, Culture, Sports, Science and Technology (MEXT), and the Council of Local Authorities for International Relations (CLAIR).

Aiming primarily to promote grass-roots internationalisation at the local level, the JET Programme invites young, college-educated individuals from around the world to participate in international exchange work and be involved in foreign language education at Japan's local government offices, boards of education, and schools.

The JET Programme has grown significantly over its 30 year history, with the number of participating countries growing from four to forty, and the number of participants from 848 to 4,952. Since its establishment, about 65,000 people from 65 countries have participated in the JET Programme, creating one of the largest international alumni networks in the world.

About the Participating Job-seekers

JET Programme participants are foreign nationals who have worked in Japan for 1-5 years at local government offices coordinating international relations (CIR) or at schools assisting in foreign language education (ALT). **In practice, CIRs engage in translation, interpretation, and international exchange event-planning; ALTs assist with foreign language education in schools.**

- Average Age : 25~35
- Nationality: Mostly US, CN, UK, AU, NZ, European countries, etc.
- Japanese Ability : Approx. 50% have JLPT Level N1 or N2 (2016 Greater Tokyo Career Fair)
